

## The Coeur d'Alene Window Company introduces I-Frame Ultimate Performance Windows

The Coeur d'Alene Window Company has introduced I-Frame Ultimate Performance Windows to its offering of energy efficient windows and doors. I-Frame windows feature U-values as low as .18 for fixed windows and patio doors and .21 for Double-hung and Double Slide versions. I-frame windows come standard with the following value added benefits:

- Neat<sup>®</sup> Glass (Low Maintenance)
- LoE<sup>3</sup>-366<sup>®</sup> Glass
- LoE-180<sup>™</sup> Glass
- Indium Coated Glass
- XL Edge<sup>®</sup> Insulating Glass
- Argon Gas
- Preserve<sup>®</sup> Protective Film
- Auto-locking Hardware
- Clear-view Screens
- Foam-filled Mainframe & Sash
- 17 Custom Color Selections, White, Adobe & Light Oak (interior)

The R-5 Super Window<sup>1</sup> is here today at The Coeur d'Alene Window Company. The window is available in 2 ¾" and 3 ¾" frame widths which means it is still installer friendly. It is available in numerous styles including double-hung, single-hung, double-slide, single-slide, casement, awning, picture, and patio door.

The Coeur d'Alene Window Company manufactures vinyl windows and patio doors in the Spokane Valley. For more information, contact...
