

Sustainability

Recycled extrusion base on capstock product beginning Spring 2025

Recycling Program for older vinyl window frames available now (There is no known program for composite (single life cycle) or wood windows)

Recycled co-extrusion

All vinyl waste is collected, bagged, and shipped to one of our two recycling sources

Utilized as substrate for co-extrusion

PVC Pipe

Atkore grinds PVC waste up and resells the granules to vinyl fencing, window, siding and pipe extruders

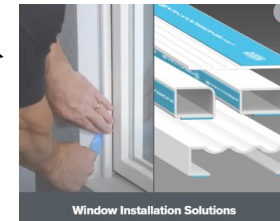

Vinyl Fencing

Vinyl Siding

Vinyl Visions grinds PVC waste up and extrudes the regrind as components in building trim, window accessories and door components

Window Installation Solutions

Window Components Solutions

The majority of our vinyl framing material is processed into window frames at our Kingman, AZ or Spokane, WA facility

Window Frame Extrusions are produced in Everett, WA

The Coeur d'Alene Window Company recycles because it is the right thing to do and it can positively impact our bottom line.
